OK, it probably won't be that long. We are working on these now.

I looked back at my notes from the conference call and CEQ requested a one pager for the facility tours.

I like what you have and I am happy to tell Fred that this tracks with previous updates for CEQ. I can also confirm that we have to do a separate document with a summary of the 3 site visits.

OK?

I don't recall CEQ requesting a one pager. This is the same format that I had been using to prepare our internal updates in the past. I'm fine either way. If you pare it down to a one pager, leave about two lines so we can include any updates after Friday's all states conference call.

Hi again, Angela

Fred says he recalls CEQ as requesting one 1-page document during the meeting. Is this your understanding? If that is true, will you pare down what you sent, or do you want us to do it, and then add our stuff? I told Fred that you had talked with CEQ so you would know best but I thought I'd better let you know what Fred thinks and double check with you.

Let me know. Thanks.

Jackie

Subject: FRAP Update

Jackie,

Attached is our June internal FRAP update. Please add any information re EPA's activities that we may have missed. If possible, can you add in any information on the Wednesday call with the European Chemicals Agency that Monica Linnenbrink is coordinating?

I just talked with Chineyre and she asked if we can provide an update on the facility tours in a separate document. I will send my notes from the tour of the [REDACTED] facility. A few people from EPA were also on the tour, and you may want to get their input as well.

We have been assembling a list of synthetic turf fields (along with contact information) in the four regions of the US. As stated on the call, we will not be able to contact the field owners until we receive OMB approval. I would be happy to share the list with you when completed.

After you add EPA's activities to the June FRAP update, can you send the document back to me? Chineyre would like for us to update the document with ongoing state-specific activities after the "All States Conference Call" and send the final document to her Friday afternoon so she can send it out to everyone who was on the call this morning.

If you have any questions, feel free to call me.

Thanks,
Angela
